

Designed, developed and manufactured in Australia by KSQ for the physical protection of MiniK10 Digital lock range, K1603BP MK range and the Ultra 7440 L combi cam range. Protects by minimising accidental damage, deliberate or forcible misuse, tampering, and indirect exposure to environmental elements such as dust and water.

KSQ ABS LC

FEATURES

- Provides a protective shield that fully encloses the lock body, turn knob and combination dials
- Made from environmentally friendly heavy-duty recycled ABS plastic
- Self closing cover drops after releasing to avoid users from inadvertently leaving it open
- Top cover fully encloses the entire lock body and keypad on all sides
- Base plate moulded with double 'D' hole to suit 'D' cylinder and the middle fixing screw. Base also provides 3 additional fixing holes for optional screws strengthening the cover to timber or metal doors (holes are countersunk for screws and small pop rivets)
- Quick snap assembly of the lid cover to base the plate using fixed integrated hinge
- Recess in cover plate top to accept MiniK10 user instruction stickers (supplied on request)
- Fits all MiniK10 locks in the range, KM1603PP Digital Cam Lock with MK override & UCC 7440 L
- Manufactured in by Australian owned and operated business
