ETERNA

Eterna brings a smarter way to manage access in offices and commercial spaces. It's built for simple day to day use, with solid security and a sleek finish, at an affordable price.

Eterna keeps entry streamlined with an integrated RFID card reader, with its low glare programmable digital ink screen, info is always easy to read at a glance. Set the access mode that suits your site, update permissions without drama, and rely on a lock designed for consistent performance. With its modern look and practical safety features, Eterna is an easy upgrade for better control and confidence.
